CAREER SUMMARY

Results-driven **QA Test Engineer** with over 2.11 years of comprehensive experience in **Test Automation**, **Manual Testing**, and **Quality Assurance** across diverse domains. Proven expertise in **Playwright** (JavaScript), **Selenium WebDriver** (Java), **API Testing**, and **CI/CD** implementation.

Extensive hands-on experience in **Playwright** automation framework using **JavaScript**, creating robust end-to-end test automation solutions. Proficient in **Playwright** API testing, cross-browser testing, and **Playwright** parallel execution for faster test cycles. Strong background in **Selenium WebDriver** with **Java**, **TestNG**, **Maven**, and **BDD-Cucumber** framework.

Skilled in **Playwright** for web automation, API testing, and mobile web testing. Expertise in implementing **Playwright** Page Object Model, **Playwright** fixtures, and **Playwright** test generators. Strong background in **Agile Methodologies**, **Test Management** using **JIRA**, and maintaining comprehensive documentation.

KEY CAPABILITIES & HIGHLIGHTS

- Extensive experience in **Playwright** automation framework using **JavaScript**, creating robust and maintainable test automation solutions with **Playwright** Page Object Model and fixtures
- Proficient in **Playwright** API testing for REST/SOAP API validation, request/response testing, and integration validation using **Playwright** request context
- Expertise in **Playwright** cross-browser testing across Chrome, Firefox, Safari, and Edge browsers with **Playwright** browser context management
- Strong knowledge of **Playwright** parallel execution, **Playwright** test sharding, and **Playwright** workers for faster test execution cycles
- Hands-on experience in **Selenium WebDriver** automation using **Java**, **TestNG**, and **Maven** for legacy test automation frameworks
- Skilled in implementing **BDD-Cucumber** framework with **Gherkin** syntax for behavior-driven test automation and collaboration
- Proficient in **Playwright** debugging, **Playwright** trace viewer, and **Playwright** codegen for efficient test development
- Experience in **Playwright** mobile web testing and **Playwright** device emulation for responsive design testing
- Strong background in **API Testing** using **Playwright**, **Postman**, and **RestAssured** for comprehensive API validation
- Certified in testing methodologies and committed to continuous learning in modern test automation frameworks, especially **Playwright**

CORE COMPETENCIES & TECHNICAL SKILLS

Test Automation Tools & Frameworks	**Playwright** (JavaScript), **Selenium WebDriver** (Java), **TestNG**, **JUnit**, **BDD-Cucumber**, **Maven**, **Page Object Model (POM)**, **Data-Driven Framework**
Programming Languages	**JavaScript** (for **Playwright**), **Java** (for Selenium), **SQL**
API Testing Tools	**Playwright** (API Testing), **Postman**, **RestAssured**, **REST API**, **SOAP API**, **JSON**, **XML**
Testing Methodologies	**Manual Testing**, **Automation Testing**, **Functional Testing**, **UAT Testing**, **Production Testing**, **Performance Testing**, **Integration Testing**, **Regression Testing**, **Cross-Browser Testing**
CI/CD & Version Control	**Jenkins**, **GitHub**, **GitLab**, **Git**, **Playwright** CI/CD integration, **Continuous Integration**, **Continuous Deployment**
Test Management & Tools	**JIRA**, **Microsoft Tools** (Excel, Word, PowerPoint), **Test Case Management**, **Defect Tracking**, **Playwright** reporting
Browser Automation Features	**Playwright** Browser Context, **Playwright** Page Object Model, **Playwright** Fixtures, **Playwright** Trace Viewer, **Playwright** Codegen, **Playwright** Screenshots, **Playwright** Video Recording
Agile & Methodologies	**SAFe Agile**, **Scrum**, **SDLC**, **STLC**, **Backlog Management**, **Roadmapping**, **Agile Ceremonies**
Databases	**SQL Server**, **SQL Queries**, **Database Testing**
Operating Systems	**Windows**, **Linux**, **macOS**

PROFESSIONAL EXPERIENCE

QA Test Engineer

Oct 2023 - Present

Maintec Technologies Pvt Ltd, Bangalore

Key Responsibilities & Achievements:

- Developed and maintained **Playwright** automation framework using **JavaScript** for end-to-end web application testing, achieving **80% reduction** in manual testing effort
- Implemented comprehensive **Playwright** test suite with **Playwright** Page Object Model, **Playwright** fixtures, and **Playwright** test generators for maintainable test automation
- Performed **Playwright** API testing for REST/SOAP API validation using **Playwright** request context, ensuring comprehensive API coverage and integration validation
- Executed **Playwright** cross-browser testing across Chrome, Firefox, Safari, and Edge browsers using **Playwright** browser context management, ensuring consistent functionality across platforms
- Optimized test execution using **Playwright** parallel execution and **Playwright** test sharding, reducing test execution time by **60%**
- Utilized **Playwright** debugging tools, **Playwright** trace viewer, and **Playwright** codegen for efficient test development and troubleshooting
- Integrated **Playwright** tests with **Jenkins** CI/CD pipeline for automated test execution, improving deployment frequency by **50%**
- Created and maintained **Playwright** test reports and **Playwright** screenshots/video recordings for comprehensive test documentation and debugging
- Performed **Playwright** mobile web testing and **Playwright** device emulation for responsive design validation across multiple devices
- Developed **Selenium WebDriver** automation scripts using **Java**, **TestNG**, and **Maven** for legacy application testing
- Implemented **BDD-Cucumber** framework with **Gherkin** syntax for behavior-driven test automation, enabling better collaboration with stakeholders
- Collaborated with cross-functional teams to set priorities, coordinate test execution, and ensure timely delivery of high-quality products
- Used **JIRA** for test case management, defect tracking, and sprint planning throughout the software development lifecycle

KEY PROJECTS

Cricket Analytics & Statistics Platform (Web-Based)

- **Role:** Automation Test Engineer
- **Tech Stack:** Playwright, JavaScript, Page Object Model (POM), Data-driven testing, Jenkins, SQL, Git
- **Project Overview:** A sports data engine and analytics platform designed to track real-time player profiles, team hierarchies, and match statistics with interactive dashboards highlighting performance milestones (e.g., batting averages, bowling economies, and recent centuries).
- **Key Achievements & Impact:**
    - Architected a scalable end-to-end automation framework from scratch using **Playwright** and **JavaScript** structured around the **Page Object Model (POM)**.
    - Implemented **Data-Driven Testing** methodologies to dynamically validate complex analytical dashboard metrics against raw backend database values, ensuring 100% data processing integrity.
    - Formulated automated test suites to handle dynamic web elements and real-time data refreshes across multiple performance leaderboards (highest runs, top wickets, and live statistics).
    - Integrated the entire Playwright test suite natively into **Jenkins CI/CD pipelines**, enabling automated regression testing on every code deployment.
    - Slashed manual testing regression cycles by **80%**, drastically reducing deployment bottlenecks while assuring the delivery of reliable, real-time cricket insights.

CERTIFICATIONS

TechElliptica - Playwright Test Automation Certification

Profound Edutech Pvt Ltd - Advance Diploma in Software Testing++

EDUCATION

Bachelor Of Engineering - Mechanical Engineering

D. Y. Patil College of Engineering | (Aug 2018- Jul 2021)

Grade: 72.10%

PERSONAL INFORMATION

Date of Birth: 27th Aug 1998

Nationality: Indian

Languages: English, Hindi, Marathi

Location: Pune, Maharashtra, India
